

NH Monthly Indicators

January 2021

January started off strong for the housing market, with healthy buyer demand and strong market fundamentals. A robust increase in housing starts in December points to an active year for new construction, but higher material costs, especially lumber, and a limited supply of buildable lots will temper the number of new units.

New Listings decreased 12.8 percent for single family homes and 2.5 percent for townhouse-condo properties. Pending Sales increased 11.2 percent for single family homes and 21.7 percent for townhouse-condo properties. Inventory decreased 63.1 percent for single family homes and 52.4 percent for townhouse-condo properties.

The Median Sales Price was up 22.8 percent to \$350,000 for single family homes and 11.9 percent to \$251,750 for townhouse-condo properties. Days on Market decreased 41.5 percent for single family homes and 31.5 percent for townhouse-condo properties. Months Supply of Inventory decreased 68.2 percent for single family homes and 55.6 percent for townhouse-condo properties.

The Mortgage Bankers Association's January research estimates approximately 2.7 million homeowners with mortgages are currently in forbearance plans. Some of these homes may eventually come to market, but given the strong appreciation in most market segments in recent years, these eventual home sales are likely to be mostly traditional sellers. However, a modest increase in short sales and foreclosures at some point this year would not be surprising.
